

Alexandria Gazette and Virginia Advertiser

LOCAL MATTERS.

The Weather Probabilities July 18, 1881.—For the Middle Atlantic States slightly cooler fair weather, northwesterly winds and stationary or lower barometer.

RELIGIOUS ITEMS.—The delightful weather of yesterday had the effect of bringing out to the several churches open large congregations to hear the Gospel, and the preachers remaining in the city, inspired by the beautiful day, never proclaimed the glad tidings more effectively. Rev. Mr. Sharp having returned from his recent trip, preached morning and night in Grace Church. Rev. Mr. Frank Lee, of Seminary Hill, who was announced to preach in Christ Church in the morning, did not arrive and the congregation which had assembled to hear him, dispersed. Rev. Wm. D. Dandridge, pastor of the Second Presbyterian Church, being absent in Chicago, where he intends to remain for a month, there were no services in that Church yesterday. The First Presbyterian Church was also closed during the day. The pulpit of the other churches were filled by the resident clergy.

Edw. Wm. M. Smart, of Orange, conducted services in the Primitive Baptist Church, on Fairfax street, in the morning, and baptized in the river near the outlet locks of the canal, two converts. Mr. John Braders, of Fairfax, and Gilbert Jones, colored, of this city.

The Gospel Temperance meeting in the hall of the Alexandria Reform Club, yesterday afternoon, was conducted by Rev. Mr. Kern, of the M. E. Church, South. Mr. A. P. Burdick, of New York, High Past Ruler of Brotherhood of North America, delivered an interesting address.

THE BECKHAM PRIZE.—It being stated in the Washington papers, that the National Rifle Association of New York had decided the National Rifle team to the winner of the Beckham prize, offered by Major J. T. Beckham to the team which had the best score in the recent shooting match at Olympia, which resulted in a tie between the National Rifle and the Washington Light Infantry, Mr. Beckham, the winner of the match, in response to questions regarding the circumstances of the statement, informed the Gazette's reporter to day that if the award had been made he knew nothing of it; that about the 21st of June last he sent the score sheet to Judge Gildersleeve, the President of the National Rifle Association, together with a statement, showing how the match had been conducted, and submitting several questions for his consideration; that these questions had been forwarded by the referee and umpire at a meeting held at Mr. B's. office, and on their conclusion, the National Rifle Association had decided to award the prize to the team which had the best score in the match; that he had no objection to the award, and that he was now waiting for the prize to be sent him.

POLICE NEWS.—Charles Atwell, the white man arrested at the upper end of King street Saturday night last, by Officer Goodrich for being drunk and disorderly, was before the Mayor this morning. Atwell had to be taken to the station house by a wagon, and the driver was to the effect that he had used the whole upper portion of the city by his acts. He was fined five dollars.

The case of the young man named Holbrook arrested Saturday night near the Virginia Midland depot for being drunk and disorderly, was continued, the accused being unable to appear on account of sickness. Holbrook's father thinks he was dragged by some one with a view to securing what he thought he had about him.

Robert Washington, a colored boy, for disorderly conduct, was dismissed with a reprimand, the Mayor assuring him that if he came before him again he would send him to the chain gang.

An intoxicated white woman claiming to be from Fairfax County was ordered out of the city. At this order she became very impatient and it required two policemen to carry her out of the city.

A colored woman named Ellen Washington, from Washington, complained at two stations house that Ellen Graham, colored, the woman committed to jail Saturday morning for stealing several dresses from Rachel Nickles, had also robbed her of a quantity of clothing and a sum of money. Officer Arnold, who was detailed to investigate the matter, recovered all the clothing and a portion of the money, and turned the same over to the owner, while the Mayor's office rejected.

CITY COUNCIL.—The postponed meeting of the City Council to elect the members of the remaining Corporation officers, Physicians to the Poor, Superintendent of the Almshouse, Keeper of the Town Clock, City Saverkeeper, Janitor of the Market Building, members of the Police force, &c., is likely to be an interesting one. All the members of the present Police force are candidates for reelection, besides a number of outsiders who are anxious to get on the force. The other positions are not much sought after, and the Mayor is expected to be over the election of police men. The last meeting of the Council a resolution was adopted authorizing the Committee on General Laws to bring in a bill providing for the formation of a new corporation, and the bill will probably be introduced to night, and it is expected will take the position out of the list of live bills. For this position there are several candidates.

A SNEAK THREE WHIPPED.—Geo. Smith, the man from Baltimore, arrested at Buzzards' Roost, about 1 o'clock Saturday afternoon by Officer James Smith, for swindling several parties this city out of small sums of money by representing himself to be the steward of a schooner William Henry, had a trial before the Mayor late in the evening, and was sentenced to receive thirty-nine lashes, twenty-five of which were promptly administered. He was then released upon the promise to come back within ten days to receive the remaining fourteen lashes due him. Smith is an old offender, a notorious sneak thief and swindler, and the city is probably rid of him for good. About a year ago he swindled Mr. Daniel Henry out of a sum of money.

DEATH OF AN OLD RESIDENT.—Mrs. Maria Miller, an old and respected resident of the First Ward, died at her home, on South Lee street, yesterday morning, after a short illness, of paralysis, with which she was stricken one day last week. Mrs. Miller was well known throughout the city, having resided here for many years, and the news of her death will be received with regret by her many friends. The funeral, as will be seen by notice elsewhere in to day's Gazette, will take place to-morrow afternoon.

A GOOD SELECTION.—Julian Taylor, Esq., of this city has been elected Assistant Professor of Modern Languages at the University of Virginia and has gone to Europe to more thoroughly familiarize himself with the pronunciation of French and German. The selection is a most excellent one. Mr. Taylor who is a graduate of St. John's Academy in this city, having taken the degree of A. M. at the University, and is in every way qualified for his new position, which he will doubtless fill with credit.

TAKEN SUDDENLY ILL.—Dr. M. French, who had been complaining for several days, while on his way to a patient yesterday morning, was taken suddenly ill with a severe cold, and had to stop in a house near the canal. About 2 o'clock in the afternoon he was removed to his residence on Washington street, where he received medical attention. The many friends of the Doctor will be glad to learn of his improved condition to day.

JUDGE WELFORD'S DECISION ON THE APPLICATION OF LAWYERS FOR COMPENSATION. Judge B. R. Welford, of the Richmond Circuit Court, before whom the matter of the application of Capt. Hugh R. G. R. of Warrenton, and Judge Wm. J. K. of Charleston, for compensation for services rendered in the case of Graham vs. the W. C. V. M. & G. S. R. R. out of the funds under the control of the Court, was argued at the last term of the Circuit Court in this city, by J. K. Cowen, Esq., of Baltimore, and Mr. J. Charles M. Blackford, of Lynchburg for the other creditors of the company, and Col. Thomas Smith and Geo. E. Hinton, of Warrenton, for Garden and Robinson, has rendered his opinion in the said matter to Gen. Mayne, the clerk of the Circuit Court here, and decided, first, that the Circuit Court here, and secondly, that the said counsel, Garden and Robinson, are entitled to the amount of compensation claimed by them; 2d, that the clients who employed said counsel must pay the same, and refuse the matter to the commissioner to ascertain and report how much each of said clients must pay of the amount thereof. The decree declares further that no other creditors of the railroad company, other than the clients of said counsel can be required to pay any part of said compensation.

THE LONG STANDING CROSSING DISPUTE SETTLED. The long standing, and celebrated dispute between the Baltimore and Ohio Railroad Company and the new Georges Creek and Cumberland and Railroad Company, in regard to the crossing of the latter road over the track of the B. & O. road, at Cumberland, on its way to the coal mines of the American Coal Company, has at last been settled. This morning a dispatch was received at the office of the American Coal Company in this city stating that the Baltimore and Ohio Railroad Company had removed all obstructions at the viaduct crossing at Cumberland, and that men were at work putting in the rails at last the settled place. This dispatch was soon followed by another announcing that the crossing was in. The American Coal Company will commence at once the shipment of coal from Cumberland to this city, which will not only greatly increase the business on the road, but will also give employment to a large number of colored men, who are now idle, and also the daily arrivals of vessels to this port. The resumption of business by the American Coal Company will be a great benefit to Alexandria.

TREATED IN AN "UNBROTHERLY MANNER." Rev. C. K. Champ, colored, of Washington, appeared at the station house late last night, and requested a night's lodging, stating that he had been "treated in a very unbrotherly and unchristian manner" by the members of Zion Church. He said he had been invited here by the officers of the church, and after preaching all day and nearly all night, not one of them nor any member of the congregation had shown him any hospitality. His reverend was very indignant at the treatment he had received, and did not think the Lord would bless such a people.

PERSONAL.—Mrs. George L. Stewart has left town to pass the remainder of the summer at her country home, near Lynchburg. S. Ferguson, Esq., left to day for the Red Bank Springs for a short respite. Mrs. Sturgeon E. Kilday, formerly of this city, but now of Memphis, Tenn., is here on a visit to relatives and friends.

DEAD.—Mr. Fenton Furr, of Bloomfield, one of the best and most respected citizens of Upper Loudoun county, died very suddenly on Saturday last of cholera morbus.

LOCAL BREVITIES. About sixty loads of stock passed through here Saturday night last over the Virginia Midland Railroad for Baltimore.

Justice Thompson issued a warrant this afternoon for the arrest of a colored man named Mann, for the larceny of a pig.

Mr. J. W. Travers, a traskman on the Virginia Midland railroad, had his hand badly injured while coupling cars at the depot of the company, in this city, Saturday night last.

The half square of ground on Lee street, between Wicks and Gibson, extending to the river, was sold by deed, recorded in the office of the Clerk of the Corporation Court, from the heirs of Hugh Smith, deceased, to the Potomac Manufacturing Company.

As will be seen by notice elsewhere, Mr. Geo. B. Price will have his new saloon at the corner of Lee street, during the season a supply of watermelons and cantaloupes, which he will keep constantly on ice ready for use, and will furnish families with the same at the rate of one cent per pound. He will also have a supply of fresh fish, which he will receive daily from salt water, and will have in addition to fish, mackerel, &c., will have a fine lot of rock fish.

Clocks were first used in monasteries, and the word originally meant bell, and the two—clock and bell—in calling their inmates to their devotions, performed the same office. They were, however, tower clocks; not small ones for apartments. One was set up in France in 1734, and created a great excitement, being the wonder of the whole. The maker of it was made a nobleman for his services in constructing so great a piece of workmanship. The first one in England was during the reign of Edward I., and was placed in the tower opposite Westminster Palace. The hour glass and dial had long been in use, but this was the first that could be called a clock except the tower clocks, which had been taken from France to England by Richard I. The word "watch" is from the Saxon word "to wake." At first a watch was as large as a man's arm, and had weights, and was called "the pocket clock."

A Fool once More. "For ten years my wife was confined to her bed with such a complication of ailments that no doctor could tell what was the matter or cure her, and I used up a small fortune in humberburg stuff. Six months ago I saw a U. S. flag with 'E.P. BROWN' on it, and I thought I would be fool once more. I tried it, but my folly proved to be wisdom. Two bottles cured her, she is now as well and strong as any man's wife, and it cost me only two dollars. Such folly pays."—W. W. Trotter, Mich.—Free Press.

A full package of "BLACK-DRAUGHT" free of charge. For sale by E. S. Leadbeater & Bro.

MONETARY AND COMMERCIAL.

VIRGINIA BONDS.—R. H. Meury & Co. Richmond, Financial Circulars says: "At the present time but little doing in the securities, and the general dullness has caused a slight decline which, however, we expect soon to be recovered. The State of Virginia is in a more prosperous condition than she has been for many a long day, with every prospect of large and continued advances to greater material wealth every year. No reasonable man can doubt that her resources are being made more available every day—are becoming more generally known and appreciated—and are continuing to increase. The large amounts of foreign capital to her borders. Prosperous as the old State seems to be, it is in reality more prosperous still, for not only have her resources largely augmented and her wealth greatly increased, but her expenses have been so materially diminished as to bring them, including her interest account in full and without further abatement, almost, if not entirely within her present income. Her present income (for 1880), as announced officially by the Auditor, is \$2,250,000, which gives a total revenue from regular sources" after deducting the amount received from incidental sources, i. e. temporary loans, &c. He also says that the payments into the Treasury, exclusive of temporary loans for the eight years last past, averaged \$3,000,000 per annum, while the similar receipts for 1880 were \$2,877,000, being \$368,000 more than the average of the previous eight years. Of course it cannot be told in advance what will be the revenue of 1881; but we are confident that the increase in personal property in Virginia will more than counterbalance the trifling abatement in the land assessments, and that notwithstanding the fact that a portion of the revenues of 1880 was composed of arrears of taxes, the income for 1880, and that for the succeeding year will increase quite as much as the previous eight years. From information obtained from the present report of the Revenue and Treasurer it appears that the present regular annual expenses of the Government, including the schools, is within \$1,150,000, with a promise of a further reduction by reason of an expected income from Penitentiary. Deduct these from the total revenue, and you will find a surplus of \$1,100,000, and there remains a balance, applicable to our interest account, of about \$1,000,000."
